

What should I already know?

Things happened before I was born.
 Things happened before my parents and
 grandparents were born.
 Life is different now to how it was when
 my grandparents were children
 What the moon is ?
 What a map is?
 What the world is?
 What a ship is ?

Important Facts

Before the Apollo 11 flight mission, people had been in space as part of the Space Race but had not yet been to the moon. This was to be the next step in space travel .On July 16th 1969, Saturn 5, was launched. There were three American astronauts on board; Neil Armstrong, Buzz Aldrin and Michael Collins. It took four days to reach the moon. Neil Armstrong was the first man on the moon - 19 minutes after Buzz Aldrin joined him. They gathered moon dirt and rocks to bring back to Earth. They also took photographs to show what the moon was like. The moon landing was important because it told us that people could travel there and back safely. It would also help us find out more about space and the moon. Neil Armstrong famously said, "One small step for man, one giant step for mankind."

Timeline

Historical skills and enquiries

Place key events in the history of space travel on a timeline.
 Compare this timeline to the timeline of your family - where
 do key events in your family's life cross over with key events in
 History?
 Explain what caused the 1969 Moon Landing.
 Explain what effects the Moon Landing and World discovery had on
 History?
