

## Geography

## Year 1

## Strand: Weather Patterns

### What should I already know?

The country I live in in England  
There are different types of weather.

### Wow moment

### Important facts

When the weather changes, you need to wear the correct clothes and do different activities.

You can record the temperature using a thermometer to see how warm or cold it is.

There are 4 seasons.

#### Spring

March, April, May

#### Summer

June, July, August

#### Autumn

September, October, November

#### Winter

December, January, February

Sunny

Sunshine with clouds

Cloudy

Rainy

Thunder

Windy

Snow

The weather patterns are different in each season.

A weather forecast is a statement saying what the weather will be like today, the next day or for the next few days.

Weather forecasts use different symbols which are helpful.

### Vocabulary

Weather - The state of the atmosphere at a particular place and time.  
Seasons - Each of the 4 divisions of the year  
Spring - The season after winter and before summer.

Summer - The season after spring and before autumn.  
Autumn - The season after summer and before winter.

Winter - The season after autumn and before spring.  
Weather forecast - A statement saying what the weather will be like today, the next day or for the next few days.
