

Tapestry for Parents and Relatives: Web Browser Version Guide

Note on Terminology: 'Setting' is a generic term for an educational establishment or education setting, such as a school, nursery, day-care or childminders. Unless a distinction is made it does not refer to computer settings or options.

Where to find Tapestry

To access the web browser version of Tapestry go to www.tapestryjournal.com or follow [this link](#) if reading a digital version of this guide. You can also use a setting-specific link that staff at your child's setting may have given you. Tapestry does not have high system requirements, but please make sure you update your web browser to the latest version available for the best user experience.

Login Information

In order to use Tapestry, your setting will have to create a user account for you on the system.

Tapestry support (the customer services team) are unable to create or modify relative accounts; if you have an issue with your Tapestry account please contact your setting. Tapestry support can only directly provide parents and relatives with basic advice on how to use the system.

The screenshot shows the Tapestry login interface. At the top is the Tapestry logo and the text 'ONLINE LEARNING JOURNAL'. Below this are two input fields: 'Email address' and 'Password', both with masked characters. A blue 'Log-in' button is positioned below the password field. A link 'Having trouble logging in?' is located below the login button. At the bottom, there are two green buttons: 'Need help? Tapestry Tutorials' and 'New to Tapestry? What is Tapestry?'.

Your Username: This will be the email address your setting used to register you on Tapestry, for example jparent@example.co.uk.

Your Password: You will get your password in one of several ways:

1. You will receive an email generated by your setting that contains a link you can follow to set up your own password and PIN number for Tapestry. This link will expire 30 days after it has been sent. If your link has expired or won't work for another reason, please contact your setting manager for assistance.
2. Your password will already have been set by your setting. You will receive it in written form, or in an email sent by setting staff. If the setting is printing this tutorial off for you, it may also be written here:
3. You can change both your email and password through the browser version of Tapestry whenever you like.

The screenshot shows the Tapestry password setup interface. At the top is the Tapestry logo and the text 'ONLINE LEARNING JOURNAL'. Below this is the heading 'Set your new password'. There are two green success messages: '✓ The password must be at least 10 characters long' and '✓ New Password and Confirm Password must match.' Below these are two input fields: 'New Password' and 'Repeat New Password', both with masked characters. A blue 'Submit' button is at the bottom.
